(54) Title: COSMETIC PEELING METHOD USING UREA

(57) Abstract: The present invention relates to a cosmetic process for treating visible and/or tactile irregularities on the skin, comprising the steps consisting in: (a) applying topically to the skin a composition comprising, in a physiologically acceptable medium, at least 20% by weight of urea, (b) leaving the composition in contact with the skin for a time of between 5 minutes and 6 hours, and (c) removing the composition by rinsing. This process makes it possible in particular to attenuate wrinkles and fine lines and/or pigmentation marks and/or acne scars and/or to unblock skin pores.
